INTEGRATION AUDIT · ONE PAGE, TEN MINUTES

Quantyx

AI development house · Johannesburg
Custom apps and integrations for SA firms

Which of your systems should talk to each other?

A self-check for operations and finance leads at South African mid-size firms. Tick every line that is true this month, then read your score.

TICK WHAT IS TRUE

01 · RE-TYPING

☐ **The same order or invoice is typed into two systems**

Every re-type is a delay and a place for a wrong amount.

02 · PAYMENTS

☐ **Card or EFT payments are matched to invoices by hand**

Gateway exports are ticked off against the books at month end.

03 · SUPPLIERS

☐ **Supplier prices or stock arrive as spreadsheets**

Quotes are only as fresh as the last file someone pasted in.

04 · STATUS CALLS

☐ **Customers phone to ask where their order is**

The answer is in a system the customer cannot see.

05 · MONTH END

☐ **Reporting needs exports from three or more tools**

The pack is built from downloads, and one person knows how.

06 · SILENCE

☐ **Nobody is told when a sync or import fails**

You hear a feed stopped when a customer does.

YOUR SCORE

0 to 1 ticks	Your systems are in good shape. Keep the list and re-check each quarter.	**No action**
2 to 3 ticks	One integration removes most of the re-work. Start with the costliest line.	**One link**
4 or more	Map the systems first, then connect them in order of payback.	**Sprint**

INTEGRATIONS WE HAVE BUILT

Payments	PayFast checkout on a live SA retail store, each payment notice checked	**Live**
Suppliers	Distributor catalogue sync from Axiz (API) and Pinnacle (XML feed) into the same store	**Live**
Card and accounting	Yoco checkout in a native iPhone app; Xero connection in a training-provider platform	**Built**

WHAT IT COSTS

Discovery sprint	One week: system map and a fixed quote, credited to the build.	**R15,000**
Integration	Connect two systems, with monitoring so a failure raises an alarm.	**from R45,000**
Care plan	Hosting, monitoring and fixes after launch, by tier.	**R6,000 to R25,000 / month**

Prices in South African rand and exclude VAT where applicable. Quotes and invoices are issued by Africortex (Pty) Ltd, reg. 2026/084374/07.

TICKED TWO OR MORE?

Send us your ticks. We reply with the one integration to do first.
